

Your network. Your servers.

Is this what you're thinking about when you could be working,
or better yet, enjoying your life?

If you're on the verge of a full-blown

**FREAKOUT,
STOP.**

Now breathe.

Nsomniac is JTnet's proactive approach to IT,
which is nice when so many providers are reactive.

Backed by our proprietary software and knowledgeable, local IT specialists,
JTnet has everything in place to optimize your company's productivity.

NSOMNIAC MAKES LIFE A LITTLE EASIER BY:

Taking the **stress out**
of your business's IT.

Preventing IT problems
before they happen
to save you time and money.

Working for you
24/7/365.

Nsomniac

Protection Features

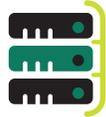

Your Network

ALWAYS-ON NETWORK MONITORING

Continually monitors performance on any device that's connected to your network.

UNSURPASSED SECURITY SOLUTIONS

Provides your organization perimeter protection from spam, malware, worms, e-mail attacks, and fraud.

Your Hardware

OUTSTANDING DESKTOP CARE

Performs regular preventive maintenance to keep the desktop productive and malware free.

EXCEPTIONAL SERVER CARE

Provides complete management of standard Microsoft, Apple, and Linux server products, including updates and fixes.

Your Data

ACCELERATED BACKUP

Applications and data can be recovered in minutes instead of days.

TIMELY DISASTER RECOVERY

In addition to daily backups, we'll put a plan in place that greatly minimizes downtime in the event of a disaster.

Professional, Local People

Our staff is knowledgeable, experienced, and local. So we're right here in Decatur, just like you. And we're available 24/7.

FREAK-OUT FREE IT

Before your next unscheduled freak out, schedule a consultation with JTnet. We'll tell you everything you need to know about Nsomniac.
